No one has commented on my earlier message:

" So what happend to the Islamic Brotherhood? The Millat, the Umma, the Caliphate and other gobble dee gook. Was it just talk? I hope not! I will be very disappointed if that is the case. "

My name is Salim Lakhani and I live in Houston USA. I was using the Yahoo serach operations and comes up with this website. I read all the posting regarding the injustic with sindhi engineers and graduates and my conclusions are as following:

1. Racist punjabi mafia is helping bihari mafia to suppress sindhis in sindh.
2. Racist punjabi mafia is coverting the "balance" of jobs in sindh but closing all oppurtinities for sindhi graduates
3. Bihar petroleum company like all other petroleum company in sindhis is discriminating sindhis graduates
4. Biharis are not sincere with sindhi land and sindhi causes.

Amar!

This is complete bull \*\*\*\* statement. This statement is most likely written by some bihari (bhangi or ganndoo).

Biharis are the most coward race in the indo-pakistan. They are only good in dirty politices and "gannd marwana".

Ask any indian about the reputation of biharis.

In pakistani sindh province all jobs within oil industry are occupied by biharis (by cheap triks).

This bihari mafia is the most harami mafia in pakistan. They can do anything for their bihari mafia interessts even misusing holy quran. They have no moral characters and that is why they help punjabi establishment.

I read the following on the Sindhnet some time ago. Please Comment:

"Sindh does not belong to Sindhis. It is conqernd territory. The Mughals (I assume they mean Bhaias, Biharis and converted Bhangis) conquered Sindh. So all jobs should go to them."

Pakistani army is a army with no moral character. Pakistani army was involved in taliban and al-qaeda operations but after september 11 when USA openly shows its "war" against taliban and its all allies than at that moment the pakistani army "gand has been burst". Now pakistani army fears that usa army can attack them and can gannnd

fucck them so now they are trying to do white wash.

Pakistan army is a army of motheer fucckers and racist punjabi mafia. These bastards were born after their punjabi mothers were fuccked by indian sikhs and pathans....therefore these mother fucckers are racists and killed 3 million bengalis muslims in dhaka.

Looks like the Pakistani Nuclear program is threat to the world. I do not believe that the Pakistan army was not involved in the sale of nuclear technology. Pakistani army planes ferried centrifuges to North Korea and Iran. Both Indian and Israeli intelligence tipped off the Americans. It is time to clean-up this mess and Sheikh George Bush the Sultan of the Free World Caliphate will soon act accordingly.

i m a sindhi staying in usa. by profession i m a doctor. we sindhis feel too much comfortance & freedom outside pakistan than within pakistan. we feel so much security and respect outside pakistan than inside pakistan. we are second grade citizen in pakistan.  
i know a sindhi engineer who did his MS from usa in petroleum but he didn't get any job in pakistan. he came back to usa again.  
biharis are products of punjabi establishments who want to convert sindhis into second grade citizens within sindh.  
biharis working in ppl or in behar petroleum are better than us (sindhis)? no but a racist mafia is supporting biharis in sindh.

We want quota system in Sindh. Our proposed quota system for Sindh oil industry is as following:

Executive Jobs - Sindhis 80%  
Non-Sindhis 20%

Technical Jobs - Sindhis 95%  
Non-Sindhis 5%

Security Jobs - Sindhis 90%  
Non-Sindhis 10%

Ladies Jobs - Sindhis 95%  
Non-Sindhis 5%

Administrative Jobs - Sindhis 95%  
Non-Sindhis 5%

Well done Balochis & Shame for Sindhis

Recently balochis in balochistan demonstrated against PPL company in balochistan. They closed all the ways

going to Sibi and with held all gas supply to the country. They were demanding more jobs for balochistan.

But shame for sindhis. We Sindhis never protested against bihar petroleum or bp company which is the biggest oil producing company in Sindh.

Things are far better in India than in Pakistan and all these because of Democracy we have in India. In Pakistan ISI is involved in every dirty game within the country. Sindhis are of course second grade citizen in Pakistan but not in India. We are giving Pakistani sindhis a guarantee that if you become a part of India we will give you more freedom and rights than Pakistan. You see in Indian Army we have officers from all over India but in Pakistani army only so-called martial race of punjabi dominates. I have noticed myself that other ethnic minorities of Pakistani like Mohajirs, Sindhis, Balochis and Pathans are all the time feel themselves under great pressure from Punjabis.

Thanks Mr. Bhatti. I am giving a list of remaining biharis in Bihar Petroleum Pakistan.

Tariq Khamisiani - President- Memon (Gujarati)  
Mausuf Ahmed - Manager - Bihari  
Sahkeel Ahsan- Manager - Bihari  
Manawar Usman - Manager - Bihari  
Hadi Hasnain - Manager - Bihari  
Tausif Kamal - Manager - Bihari  
Nooruddin Hashmi - Manager - Bihari  
Aleem Khan - Manager - Bihari  
Asif Ali - Manager - Bihari

I belong to those biharis who are sincere with Pakistan and we condemn these racist biharis who are working in Bihar Petroleum Pakistan and showing discrimination against Sindhis and Mohajirs on the instructions of Punjabi Establishments. I can assure to all readers that these racist biharis are bastards and have no shame or moral characters. They consider Pakistan as a "platform" of making money.

In want to add something in this regards. I did my MSc in Geology 6 years ago from University of Karachi in First division. I haven't get any job anywhere while all biharis have jobs in the Sindh oil industry. You ask any graduate of Karachi university or any graduate of Sindh university, they have more or less same feeling about the Bihar petroleum Pakistan. From 1977 till now they are just providing job opportunities to ethnic biharis.

Expell biharis from Sindh and send them to Punjab.

By [Syed Intizar Hussain](#) on Friday, February 20, 2004 - 11:46 pm:

my son studied at one of the best engineering university of usa in Texas. he got his master in petroleum engineering. his gpa was 4/4. he went to pakistan for a job but after 6 months he came back to usa because he didn't get any job at all. right now he is working in a good place and he is getting a good salary. but the problem is, the doors are closed for merit in pakistan and because of this criminal act thousands & thousands of pakistan brilliant engineers and graduates are running from pakistan.

i myself studied in NED university in 60 and then i came to usa because i was working in sui gas company in

karachi. the company was full of dirty politics and i have to admit that mostly biharis and punjabis do dirty politics in pakistan. i had no vertical mobility in sui gas company therefore i came to usa.

i don't know when this dirty politics will stop. biharis are cheaters. although they claim themselves as urdu speaking but i am telling you the truth that actually these biharis are the real enemy of urdu speaking peoples.

i can give you an example....2 years ago bihar petroleum hired an "expired bihari model". The name of this "expired bihari model" is E.D. His original name is Ethasham ur Rehman. He is from bihar and speak perfect bihari language. He was in USA, where he was like "jack of all master of none". He did every thing in USA and somehow manage to enter in USA oil industry. After retirement he went to pakistan, where he got a job of advisor in bihar petroleum pakistan. In usa there are more than 12000 pakistani students who are studying at best usa universiites but they don't have a making of getting a job in pakistan...but expired bihari model can easily get jobs?

this expired bihari model knows me very well.
